

# GLO BOB LOG

By: 77A & 22F | June 2024

# Features

## Enjoy your city

Even cities could be quiet places, you just have to know where to look.

## Share noisy noise

Once registered, every user can post comments about the sound quality of a location.

## Trash the share

Just as users can add posts, they can also remove them by upvoting or downvoting them.

## Be the most noisy in the crowd

It features an Engagement Rewards system to encourage user interactions.

# Coming soon...

## Porting su mobile

Due to its unique features, this application is highly functional and easy to use, making it ideal for running on phones.

## Search for silence

Discover your future favorite spot, all from the comfort of your home.

## Become worldwide

Expanding it globally would likely be the first and most obvious step we would have taken if we had more time.
